

# Better **Research** Stronger **Education** Brighter **Futures**

EduSmart Consult LTD is a Rwandan company working where education, research and technology meet.

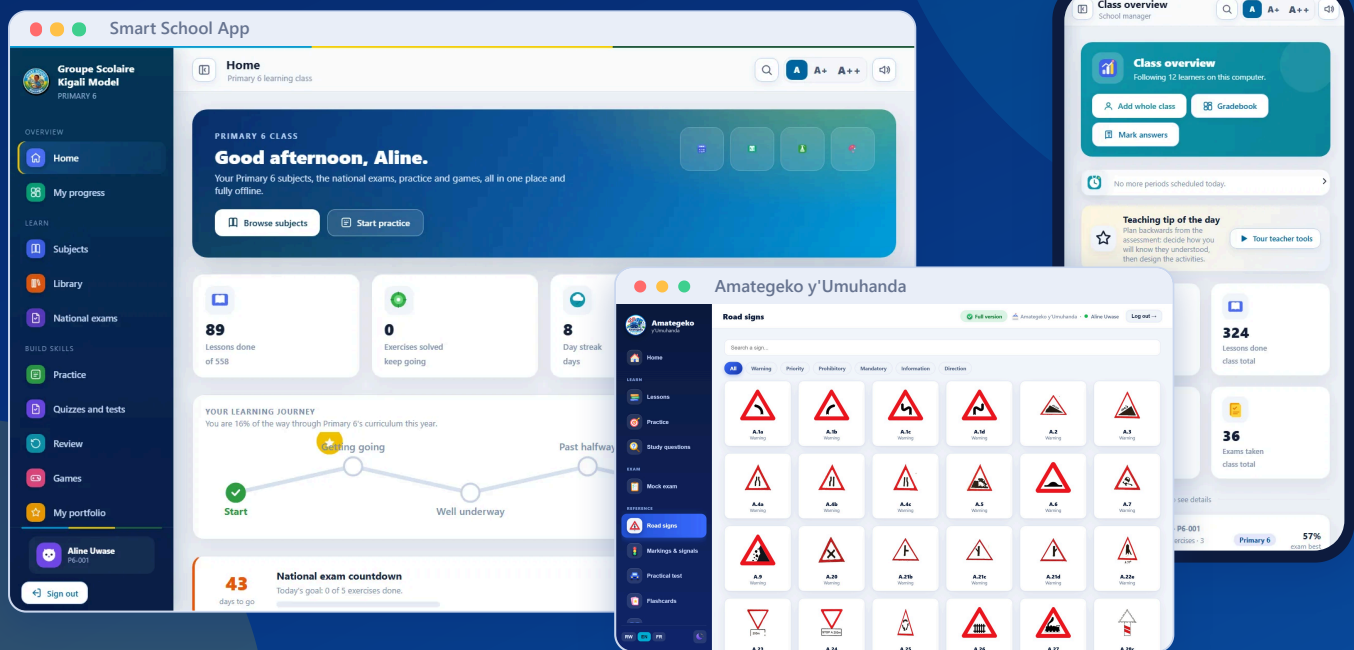

Education

Research

Software

Data

ICT

## WHO WE ARE

# Practical education and technology, made in Kigali

We are a private company limited by shares, registered in Rwanda. Our main activity is education, supported by consulting, research, data and computer systems services.

Smart School App came out of one question: what would a Rwandan primary school need if it had no reliable internet? The answer shaped everything we build.

### Private by design

Records stay with the school or organisation. Online features are optional and explained plainly.

### Offline first

If it needs the internet to teach a lesson, it is not finished. Our tools work offline first.

### People in control

Software should save time, not replace judgement. Every automatic result can be reviewed and changed.

## What we do

### Education and Training

Teacher and school leader training, tutoring, learning resources and assessment design.

### Inclusive and Special Needs Education

Support so every learner can take part.

### Research and Consulting

Studies, evaluation and evidence for programmes.

### E-Learning and Digital Learning

Digital courses and learning platforms.

### Web and Software Development

Websites and apps built to your needs.

### Data and Information Services

Collection, analysis and reporting.

### ICT and Computer Systems Support

Set up, repair and support for schools and offices.

### Environmental and Technical Consulting

Technical advice for projects.

### Administrative, Fundraising and Equipment Support

Help with proposals, procurement and administration.

## Based in Kigali, working across Rwanda

Itetero, Nyagatovu, Kimironko, Gasabo, Kigali. Registered company, Rwanda.

## OUR PRODUCTS

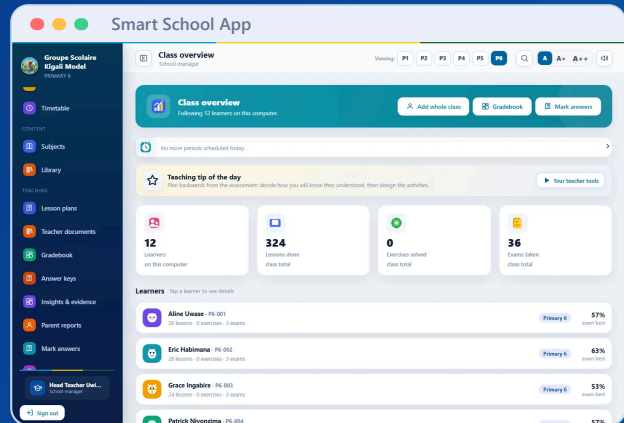

# Tools that work where the internet does not

Built and tested with Rwandan schools in mind. Each one runs on ordinary computers and phones.

## Smart School App

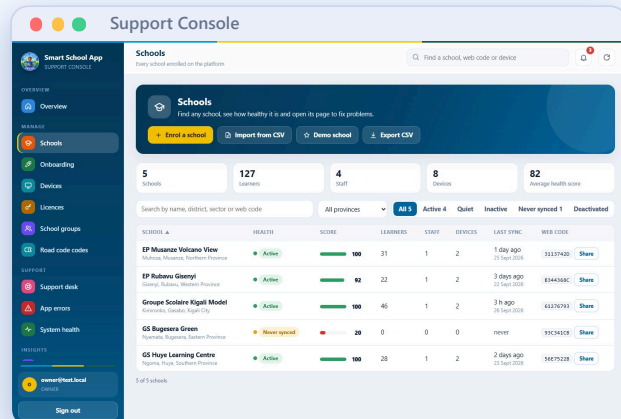

The complete offline learning and school management suite for Primary 1 to Primary 6, on Windows and Android.

- Full curriculum library and 62 national exam papers
- REB lesson plans, timetables, marking, gradebook
- Parent reports with an offline QR code

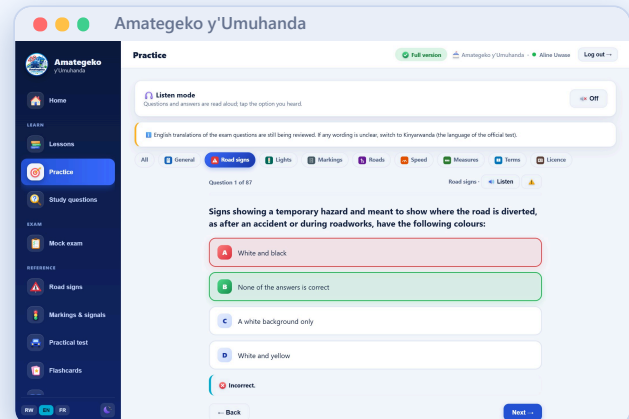

## Smart School Cloud

Browser access and safe sync between devices, with a Support Console. Optional and private.

## Amategeko y'Umuhandanda

Road code theory practice with 328 questions and 126 road signs. Try it free in a browser.

## P1 to P6

every class and subject

## 3

languages: Kinyarwanda, English, French

## Windows, Android, Web

same account, same content

## WHY SCHOOLS CHOOSE US

# Simple, honest and easy to start

We keep it practical: a short call, a written scope, staged delivery and support after handover.

1

### Talk to us

A short call to understand the need.

2

### Written scope

A clear scope and quote.

3

### Staged delivery

Review points along the way.

4

### Handover and support

Training and help after we finish.

## Who we work with

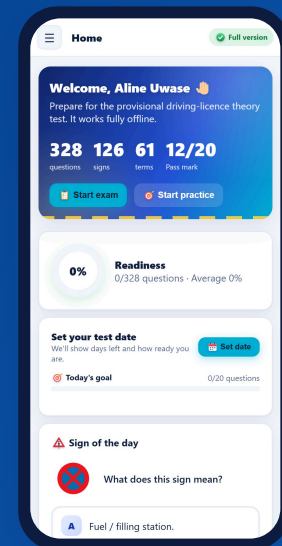

- 🎯 Schools that want practical, hands on teacher training
- 🎯 Training providers that need course materials and learner records
- 🎯 Projects that need to prepare teachers to use new tools
- 🎯 Organisations that need research, evaluation or digital tools

## What you can count on

- 🎯 Plain language, no jargon
- 🎯 Tools that keep working when the internet does not
- 🎯 Training for the people who will use them
- 🎯 Clear licences and clear prices

## Try before you decide

Open the demo school of Smart School App or the free sample of Amategeko y'Umuhanda in your browser. No sign up.

## Talk to us about your school or organisation

We reply to every enquiry within two working days.
